Тема: Congratulations on the great success of the Universiade

Dear President Minnikhanov and Farid Abdulganiev,

On behalf of the delegation from the United States, I want to thank you for the great hospitality shown to me personally and all of the athletes and officials from our country.

The standard of the venues has been fantastic and all our coaches and officials have complimented the organization of all the staff and volunteers that they encounter at every turn. The greatest accomplishment from my point of view has been the quality of the village, including the accommodations, the outside spaces, the food, the staff in our building, and all the little touches such as entertainment, flowers, signage.

In August and September last year, I was able to stay in the village for 10 days as part of the shooting and rowing competitions held in Kazan. I thought at the time that this could be a very good Athletes' Village for our delegation. But the actual result this year is beyond what I envisioned at the time: This is definitely the nicest village that I have stayed in for any international competition.

Thank you again for your support of international sports. I will mention your hospitality frequently when I return to my home in the USA.

Sincerely,

Neal Holden
Deputy Head of Delegation
