**Тема:** Kazan 2013 | Universiade Village

Dear Mr. President Minnikhanov,

In the name of the Swiss Delegation we would like to thank you for the outstanding quality of the Universiade Village. We have the chance to live in an extremely well developed and serviced Village with our athletes and staff. From all the members of the delegation we hear only positive things about the accommodation and the high standard from the Russian staff working in and around the buildings. Also we as delegation officials have found great support with all our problems throughout the days we have been staying here. Everybody was always trying to find the best solutions for us, so that we could arrange a perfect base for our athletes.

Thank you very much for your hospitality here in the village. We will miss the great food at the dining hall and the friendly faces in the offices at the main international building.

The Universiade Village has really made Kazan 2013 a fantastic experience for all of us.

With our outmost regards,

Renato Maggi  
Deputy Head of Delegation  
Team Switzerland
